

# PHAM QUOC NHAT

## WEBSITE DEVELOPER INTERN

Tan Binh District, HCM | quocnhat02092003@gmail.com | 0796704249  
Portfolio: <https://quocnhat-portfolio.vercel.app/>

---

### SUMMARY

---

Motivated and detail-oriented Fullstack Web Developer Intern with hands-on experience in building modern web applications using ASP.NET Core, React TypeScript, and Next.js. Eager to learn and contribute by supporting API development, improving UI/UX, and writing clean, maintainable code. Passionate about expanding technical skills, collaborating with teams, and delivering high-quality features while continuously improving through real-world project experience.

### TECHNICAL SKILLS

---

- Frontend: NextJS, React TypeScript, Redux Toolkit, Tailwind CSS
- Backend: ASP.NET Core, Entity Framework Core, LINQ, RESTFUL API, JWT Authentication, Authorization
- Database: MySQL, MongoDB
- Realtime Platform: SignalR, SocketIO
- DevOps & Tools: Git/GitHub, CI/CD (GitHub Actions), Render, Vercel
- Testing & Debugging: Postman

### PERSONAL PROJECT

---

#### BookStore – E-Commerce Platform

(09/2025 - 11/2025)

- A full-stack online bookstore allowing users to browse, search, and purchase books.
- Built reusable and responsive UI components with Next.js, React, and TailwindCSS
- Implemented user authentication/authorization, product filtering, cart system, and checkout flow
- Integrated Stripe for secure payment processing
- Implemented secure user authentication (JWT) and optimized database queries, reducing API response time.
- Developed ADMIN panel for managing products, orders, and user accounts
- Fully responsive design for all devices with Tailwind CSS.
- Tech Stack: Next.js, React TypeScript, TailwindCSS, Stripe Payment, MySQL, ASP.NET Core Web API, LINQ, EF Core, JWT Authentication.
- Github: [github.com/quocnhat02092003/BookStore](https://github.com/quocnhat02092003/BookStore)

#### Threads – Social Media Web Application

(06/2025 - 08/2025)

- Built a full-featured social media web application with post creation, likes, comments, follows, and real-time notifications.
- Designed and implemented backend REST API with secure authentication & authorization (JWT, refresh token flow).
- Integrated SignalR for real-time notifications (likes, comments, follows) without page reload.
- Tech Stack: ASP.NET Core Web API, Entity Framework Core, MySQL, SignalR, JWT Authentication, React TypeScript, Redux Toolkit, Tailwind CSS.
- Optimized responsive design for mobile and desktop devices.
- Github: [github.com/quocnhat02092003/thread-app](https://github.com/quocnhat02092003/thread-app)

#### Portfolio – Personal Website

(08/2025)

- Designed and developed a personal portfolio website to showcase projects, skills, and experiences.
- Implemented responsive design with smooth animations and optimized performance.
- Integrated dynamic sections (About Me, Projects, Contact) for better presentation.
- Deployed with Vercel for production-ready hosting.
- Tech Stack: React TypeScript, Vite, Tailwind CSS, Framer Motion, shadcn/ui.
- Github: <http://github.com/quocnhat02092003/portfolio>

### EDUCATION

---

#### Industrial University of Ho Chi Minh City

08/2021 - Present

Internet of Things And Applied Artificial Intelligence
